

SWFAS Transitional Living Center  
Zonta Foundation Grant Report  
August 7, 2008

To date two patients are attending college, CT and RC, three others are in the process of registration. One will be attending Hi Tech Vocational School.

Although RC struggled through her first course (math) she did indeed pass and was thrilled and excited to share that news with the entire community. Yesterday she registered for her next course; composition.

CT is taking her first course beginning on 8/25/08. She will be pursuing courses related to management.

We had a slow beginning with this program due to beginning after the start of the winter term. Both of the students who are registered have completed all applications for alternative funding and were denied due to their part-time student status and hence the Zonta funds were used to pay for tuition, books, bus passes and rental stipend (see budget below).

#### Budget Zonta Foundation 2007-2008 Grant

##### Tuition paid to date

Edison College (RC)	\$351.96
