Dear Linda Robison and Valorie Babb,

I'm pleased to provide this project status report to our Zonta service team as requested in our February 15, 2008 Grant Award.

Our proposal was to upgrade our office equipment to allow us to provide better coordination of our incoming requests and therefore be able to meet the expected increase in demand on our services, particularly for women and girls.

We got off to a slow start on this project as we were in peak season and wanted to make sure the system design would meet our requirements. I'm pleased to report we now have all new office computer equipment in house and it is working fine. We're in the process of finalizing the configuration to best meet our needs. Our budget for the project was very accurate at \$4,000 and the \$2,500 grant award covered a significant part of our expense.

In anticipation of FISH of Sanibel's ability to step up to the increased demand, made possible by knowing we would have more efficient administrative and office systems, we launched a Food Pantry this off season. The Food Pantry is located within our Walk-In-Center and has provided much needed food supplies to many families led by single parents, mostly women.

Thank you again for your generous grant award. It has allowed us to expand our services to meet the needs of many more women and children.

FISH of Sanibel would like to invite the Zonta service team, or any Zonta member for that matter, to stop by our WIC for a tour and an opportunity to learn more about our services.

Sincerely,

Bill Fellows
Resource Development Director
